

Impressions of the film

The film received a mixed response when shown to patients and carers at Castle Bánffy.

Patients

1. The film was nice, I liked it.
2. Did you see me dancing?
3. It's a horror film. They only showed the patients that are very ill. The film only shows what they wanted to show.
4. I did not like the film at all. They didn't film the ergotherapy.
5. It was very amusing. They only showed the worst things in the film.
6. It bothered me that they filmed me. The patients saw me like that and are now thinking of me.
7. I am happy that other people will also see the film and can help us.
8. It was nice and I hope that they paint the walls.
9. No telephone... scabs and lice... it was nothing but the truth. That means the film is good.

Employees

1. Even so, the Germans shouldn't do something like this.
2. I don't understand at all. Is it up to the Germans to show us what life is like in Borsa?
3. Who gave them the right to film? Many people had no idea they were being filmed.
4. It is terrible. We feel betrayed. We always welcomed them with open arms and then they do everything they can to lose us our jobs.
5. In the washroom, we do not shout at the patients. They installed microphones in the walls.
6. They didn't show the good sides in the film. Things have changed since then.
7. They didn't film in the secure ward which has recently been renovated. Why not?
8. They didn't film the ergotherapy. Why not?
9. I'm sure they installed hidden cameras. I can't remember being filmed.
10. If they translated all the nonsense from Romanian into German, why haven't they translated what was said in German.
11. Tobias is a good person. It is very good that he did not put everything he shot into the film. There were worse things that are not included. All the same, some people are very angry.
